

IT IS CALLED OFF

for THE COST OF MEDICINES
to Be Soon Withdrawn—Only
a Short Time Left in

For several months past Drs. Copeland and Branamian have given their entire time, their knowledge, skill and service for nothing. They are still doing so. The famous Copeland treatment as present is as free as air or water. But the free offer must be withdrawn and the regular fee

This notice is given because Drs. Copeland and Robinson do not desire to automatically withdraw the license effect with a full, just and fair warning of its expiration.

This will, therefore, be considered as such a warning. The regular fee for treatment of the lice was \$1.00. The lice all were dead to begin or renew treatment under the license. The lice will be dead and the lice will be dead at once, so that there will be no more requests for it after the time expires.

BRIEF TESTIMONIALS.

ROSCOE SHIFFER, residing with his father, John Shiffer, at 157 East Ninth Street, Chicago, Ill., writes: "I have been the subject of treatment with the Copeland louse powder for the treatment of lice on my head. I have stopped up nose, dropping in throat

ROSCOE SHIFFER, residing with his father, John Shiffer, at 157 East Ninth Street, Chicago, Ill., writes: "I have been the subject of treatment with the Copeland louse powder for the treatment of lice on my head. I have stopped up nose, dropping in throat

ROSCOE SHIFFNER.
enlarged tonsils and other kindred symptoms. Mr. Shiffner says in regard to his case, "I had been feeling quite comfortable, but a few days ago, I had a cold, and a physician told me that I had a cold, and a short time, yet they did wonders for him. I was very much surprised, and I was rapidly improved, until he was restored to perfect health."
MISS LOUISE FUNNE, of Independence Mo., who had been a sufferer of catarrh of the nose for several years, writes quite while, says: "My symptoms were stopped up nose, discharge from ears, dropping of the eyes, and a distressed feeling at the stomach. Since taking Dr. Williams' Pink Pills, my nose is cleared and my hearing also symptoms are removed and my hearing also improved."
MRS. L. D. DOLPH, who resides at 416 East Eighth street, this city, writes: "I am a sufferer from chronic malady of the stomach, and I have been suffering for some time. I had previously taken treatment from another specialist, who charged me \$100.00, but I have not been improved."
MR. JOHN METTMAN, of 325 Dakota

The Copeland specialists for each part of the liver and other troubles of the body, could not find a cure in months. The dizziness, flashes and fever spells would attack me and I was nervous, and could not sleep a night. Since taking treatment from the Copeland specialists, the dizziness, flashes and fever spells have disappeared. I have gained twenty pounds. I can not say too much in praise of their treatment of my case. My kind wishes go with them for the good result they have given me. I feel better than I have for many years.

W. H. BUTCHER, of Edelstein, Ill. says: "I was troubled with a bad case of catarrh of the head, stomach and kidneys. I treated with eminent physicians all over the country, but was not cured. I had dizzy spells, my eyes were sore, I had dizzy spells,

Stomach was a constant annoyance to me. I had been ailing so long and gradually growing worse all the time that when a "great treatment" by Dr. Copeland by mail was in a very good condition. But since taking the course I am feeling well, and am working every day. These physicians have done wonders for me."

For mail treatment write for symptom blank.

\$4 THE LIMIT.

Four Dollars a month (less than a dollar a week). This offer is made by the Copeland Special Service, and is good only for the first week of every month. All other bills good and not to be paid until the 1st of every month until cure is effected.

MANY PEDAGOGUES AT DENVER.

Denver, Col., July 6.—About 3,500 delegates to the National Educational Association convention have arrived in the past twenty-four hours. Among the special trains arriving to-day were four over the Burlington from Chicago, comprising forty-three cars. Among the prominent educators who arrived to-day are Charles R. Skinner, state superintendent of New York; C. W. Bardeen, editor of the Educational Bulletin of Syracuse, N. Y.; A. M. Raub, of Del-

As the morning session of the National Council of Education the paper on elementary schools read yesterday afternoon was discussed by C. F. J. H. Baker, of Morris, Minn., and J. H. Gilroy, of Chicago, after which the report of the committee on state school systems was read by the chairman, Henry Sabin, of Des Moines, Ia. The subject considered was "Grading of schools," and the report was that of the school district and the substitution of township or county organization, for the purpose of better distributing tax-

The afternoon session was devoted to a "round table" discussion of the "Influence of Herbert's Doctrine on the Course of Study in the Normal School." Professor C. A. McIntyre of Normal, Illinois, introduced the subject, and Mr. C. H. Smith of the University of Illinois, presented a paper on the subject, and led the discussion, which consisted principally of questions by the council and answers by Mr. Smith. The most salient points of Harbathian philosophy

study for three grades made up largely of topics from American history and products. The Potomac Club of Denver gave a reception to the council last night at the home of Miss Warren. The University park, transporting the members by a special train of street cars. Fifty carloads of teachers arrived this evening from Eastern points, and it is now estimated that only 5,000 delegates are here.

FOSTER ON THE WEATHER.

Explains Some of His Difficulties and Advises as to Crop Probabilities at Long Range.

Foster's Local Forecasts.

The storm wave will reach this meridian and the other changes will occur at and after the middle of the week, extending twenty-four hours of a p. m. of the date.

them, and therefore I am justified in helping them.

Then I must live by the products of weather, and I am compelled to make forecasts, and were it not for the support from the press my work in this would be cut out.

Another difficulty lies across the way giving advice as to the future crops. Same weather will not produce the same crops in the various soils and it is not possible to know the exact depth of soil in every locality of the United States.

Before the dates of this storm wave and with it will come in the drought period.

I do not mean to say that a general drought is inevitable. It is possible that in July, for the United States, will prove to be a rainy season. But it is not probable that the drought sections for July were noted in my last bulletin, which I regard as the most reliable one. It is not a base issue.

This storm wave will also bring some of the hottest days of the month, very hot indeed.

The warm wave will cross the western states about 15th or 16th of July. It will be a very strong one, and will be followed by a cold wave.

Wichita, Kas., July 6.—(Special.)

rain four months, July to October, and the weather conditions during this period will be very uncertain in the Missions.

Long range forecasts for April, May and June have been remarkable well verified so far. The weather has been generally attracting general attention of dealers.

Fall sowing of winter grain will begin about the middle of September, and will be as late as the kind of grain that should be planted.

This advice will be based on the weather, believing that the notable chances in our favor are still open.

It is now too late to get certain kinds of

Martin & Graham, printers and book binders, who have been doing business here for about \$2,000 with assets worth this amount.

Guthrie, O. T., July 6.—(Special.) M. J. Guthrie, a resident of Chicago, was at the Chicago reservation to-day and lodged in the city. He had been selling whisky to Indians. She had been captured when she was dressed in military uniform.

Ridgdon, Kas., July 6.—(Special.) This day both were extra passengers traveling from Dodge City to Poncha Villa. They were traveling trains for
